

BARNS GREEN PRIMARY SCHOOL

Online Safety Policy

This policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Scope of the Online Safety Policy

This Online Safety Policy outlines the commitment of Barns Green Primary School to safeguard members of our school community online in accordance with statutory guidance and best practice. Schools should be aware of the legislative framework under which this Online Safety Policy template and guidance has been produced.

This Online Safety Policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Barns Green Primary School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

Policy development, monitoring and review

This Online Safety Policy has been developed by the Headteacher alongside:

- staff – including teachers/support staff/technical staff
- governors
- parents and carers
- community users

Date approved: May 2024

Review in: May 2025

Schedule for development, monitoring and review

This Online Safety Policy was approved by the Barns Green Primary School Governing Body	23-5-24
The implementation of this Online Safety Policy will be monitored by:	The Headteacher and Deputy Headteacher
Monitoring will take place at regular intervals:	Annually
The governing body will receive a report on the implementation of the Online Safety Policy	Annually
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new technological developments, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	23-5-25
Should serious online safety incidents take place, the following external persons/agencies should be informed:	The Police, Social Services, West Sussex Local Authority.

Process for monitoring the impact of the Online Safety Policy

The school will monitor the impact of the policy using:

- logs of reported incidents
- surveys/questionnaires of: learners, staff, parents and carers

Policy and leadership

Responsibilities

To ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns, and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the online safety roles and responsibilities of individuals¹ and groups within the school.

Headteacher and Senior Leaders

- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community and fostering a culture of safeguarding.
- The headteacher and another member of the senior leadership team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff².
- The headteacher/senior leaders are responsible for ensuring that technical staff, and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role.
- The headteacher/senior leaders will carry out regular monitoring.

Governors

The DfE guidance “Keeping Children Safe in Education” states:

“Governing bodies and proprietors should ensure there are appropriate policies and procedures in place in order for appropriate action to be taken in a timely manner to safeguard and promote children’s welfare this includes ... online safety”

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy

This review will be carried out by the Governing Body whose members will receive regular information about online safety incidents and monitoring reports.

A member of the governing body will take on the role of Online Safety Governor

- regular meetings with the Headteacher (Headteacher)
- regularly receiving (collated and anonymised) reports of online safety incidents
- checking that provision outlined in the Online Safety Policy (e.g. online safety education provision and staff training is taking place as intended)
- reporting to relevant governors
-

The governing body will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

The Headteacher

The Headteacher will:

- lead this policy

- work closely with the Designated Safeguarding Lead (DSL), where these roles are not combined
- take day-to-day responsibility for online safety issues, being aware of the potential for serious child protection concerns
- have a leading role in establishing and reviewing the school online safety policies/documents
- promote an awareness of and commitment to online safety education / awareness raising across the school and beyond
- liaise with curriculum leaders to ensure that the online safety curriculum is planned, mapped, embedded and evaluated
- ensure that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place and the need to immediately report those incidents
- receive reports of online safety incidents³ and create a log of incidents to inform future online safety developments
- provide (or identify sources of) training and advice for staff/governors/parents/carers/learners
- liaise with local authority, technical staff, pastoral staff and support staff (as relevant)
- meet regularly with the online safety governor to discuss current issues, review (anonymised) incidents and if possible, filtering and monitoring logs
- attend relevant governing body meetings/groups
- liaise with the local authority

Designated Safeguarding Lead (DSL)

The Designated Safeguarding Lead should be trained in online safety issues and be aware of the potential for serious safeguarding issues to arise from:

- sharing of personal data
- access to illegal/inappropriate materials
- inappropriate online contact with adults/strangers
- potential or actual incidents of grooming
- online bullying.

Curriculum Leads

Curriculum Leads will work with the Headteacher to develop a planned and coordinated online safety education programme as set out through the PSHE Association scheme of work and Purple Mash.

This will be provided through:

- a discrete programme
- PSHE and SRE programmes
- a mapped cross-curricular programme
- assemblies and pastoral programmes
- through relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week.

Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- they understand that online safety is a core part of safeguarding
- they have read, understood, and signed the staff acceptable use agreement (AUA)
- they immediately report any suspected misuse or problem to Headteacher for investigation/action, in line with the school safeguarding procedures
- all digital communications with learners and parents/carers are on a professional level
- online safety issues are embedded in all aspects of the curriculum and other activities
- learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices
- in lessons where internet use is pre-planned, learners are guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where lessons take place using live-streaming or video-conferencing, they have full regard to national safeguarding guidance and local safeguarding policies and take note of the guidance contained in the SWGfL Safe Remote Learning Resource
- they have a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc.
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.
-

Network Manager/Technical Staff (Technology Provider)

The network manager/technical staff (technology provider) is responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy and Technical Security Policy to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack

- the school meets (as a minimum) the required online safety technical requirements as identified by the local authority and other relevant body
- there is clear, safe, and managed control of user access to networks and devices
- they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to the Headteacher for investigation and action
- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person
- monitoring software/systems are implemented and regularly updated as agreed in school policies

Learners:

- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement and Online Safety Policy
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.

Parents and Carers

The school will take every opportunity to help parents and carers understand these issues through:

- publishing the school Online Safety Policy on the school website
- providing parents/carers with a copy of the learners' acceptable use agreement
- publishing information about appropriate use of social media relating to posts concerning the school
- seeking their permissions concerning digital images, cloud services etc
- providing parents'/carers' evenings, newsletters, website, social media and information about national/local online safety campaigns and literature.

Parents and carers will be encouraged to support the school in:

- reinforcing the online safety messages provided to learners in school

Community users

Community users who access school systems/website/learning platform as part of the wider school provision will be expected to sign a community user AUA before being provided with access to school systems.

The school encourages the engagement of agencies/members of the community who can provide valuable contributions to the online safety provision and actively seeks to share its knowledge and good practice with other schools and the community.

Online Safety Group

The Online Safety Group has the following members

- Designated Safeguarding Lead
- Senior leaders
- Online safety governor
- Technical staff

Members of the Online Safety Group will assist the Headteacher with:

- the production/review/monitoring of the school Online Safety Policy/documents
- the production/review/monitoring of the school filtering policy (if possible and if the school chooses to have one) and requests for filtering changes
- mapping and reviewing the online safety education provision – ensuring relevance, breadth and progression and coverage
- reviewing network/filtering/monitoring/incident logs, where possible
- encouraging the contribution of learners to staff awareness, emerging trends and the school online safety provision
- consulting stakeholders – including staff/parents/carers about the online safety provision
- monitoring improvement actions identified through use of the 360-degree safe self-review tool.

An Online Safety Group terms of reference template can be found in the appendices.

Professional Standards

There is an expectation that required professional standards will be applied to online safety as in other aspects of school life i.e., policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.

Policy

Online Safety Policy

The DfE guidance “Keeping Children Safe in Education” states:

“Online safety and the school or college’s approach to it should be reflected in the child protection policy”

The school Online Safety Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy
- is regularly reviewed in a collaborative manner, taking account of online safety incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they should use digital technologies responsibly, protecting themselves and the school and how they should use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and online safety incidents, including external support mechanisms
- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction and through normal communication channels
- is published on the school website.

Acceptable use

The school has defined what it regards as acceptable/unacceptable use and this is shown in the tables below.

Acceptable use agreements

An Acceptable Use Agreement is a document that outlines a school’s expectations on the responsible use of technology by its users. In most schools they are signed or acknowledged by their staff as part of their conditions of employment.

The Online Safety Policy and acceptable use agreements define acceptable use at the school. The acceptable use agreements will be communicated/re-enforced through:

- **staff induction and handbook**
- posters/notices around where technology is used
- communication with parents/carers
- education sessions
- school website

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not access online content (including apps, games, sites) to make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Any illegal activity for example: <ul style="list-style-type: none"> Child sexual abuse imagery* Child sexual abuse/exploitation/grooming Terrorism Encouraging or assisting suicide Offences relating to sexual images i.e., revenge and extreme pornography Incitement to and threats of violence Hate crime Public order offences - harassment and stalking Drug-related offences Weapons / firearms offences Fraud and financial crime including money laundering 					X
Users shall not undertake activities that might be classed as cyber-crime under the Computer Misuse Act (1990)	<ul style="list-style-type: none"> Using another individual's username or ID and password to access data, a program, or parts of a system that the user is not authorised to access (even if the initial access is authorised) Gaining unauthorised access to school networks, data and files, through the use of computers/devices Creating or propagating computer viruses or other harmful files Revealing or publicising confidential or proprietary information (e.g., financial / personal information, databases, computer / network access codes and passwords) Disable/Impair/Disrupt network functionality through the use of computers/devices Using penetration testing equipment (without relevant permission) 					X
Users shall not undertake activities that are	Accessing inappropriate material/activities online in a school setting including pornography,				X	

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
not illegal but are classed as unacceptable in school policies:	gambling, drugs. (Informed by the school's filtering practices and/or AUAs)					
	Promotion of any kind of discrimination				X	
	Using school systems to run a private business				X	
	Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school				X	
	Infringing copyright				X	
	Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	X	
	Any other information which may be offensive to others or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

Consideration should be given for the following activities when undertaken for non-educational purposes: Schools may wish to add further activities to this list.	Staff and other adults				Learners			
	Not allowed	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission/ awareness
Online gaming					X			
Online shopping/commerce					X			
File sharing								
Social media					X			
Messaging/chat					X			
Entertainment streaming e.g. Netflix, Disney+					X			
Use of video broadcasting, e.g. YouTube, Twitch, TikTok					X			
Mobile phones may be brought to school					X			
Use of mobile phones for learning at school					X			
Use of mobile phones in social time at school					X			
Taking photos on mobile phones/cameras					X			

Use of other personal devices, e.g. tablets, gaming devices					X			
Use of personal e-mail in school, or on school network/wi-fi					X			
Use of school e-mail for personal e-mails					X			

When using communication technologies, the school considers the following as good practice:

- when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school
- any digital communication between staff and learners or parents/carers (e-mail, social media, learning platform, etc.) must be professional in tone and content
- staff should be expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community
- users should immediately report to a nominated person – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication
- relevant policies and permissions should be followed when posting information online e.g., school website and social media. Only school e-mail addresses should be used to identify members of staff and learners.

Reporting and responding

The school will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

- there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.
- all members of the school community will be made aware of the need to report online safety issues/incidents
- reports will be dealt with as soon as is practically possible once they are received
- the Designated Safeguarding Lead, Headteacher and other responsible staff have appropriate skills and training to deal with online safety risks.
- if there is any suspicion that the incident involves any illegal activity or the potential for serious harm (see flowchart and user actions chart in the appendix), the incident must be escalated through the agreed school safeguarding procedures.
- any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors and the local authority.

- where there is no suspected illegal activity, devices may be checked using the following procedures:
 - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
 - conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
 - ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
 - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed, and attached to the form
 - once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
 - internal response or discipline procedures
 - involvement by local authority
 - police involvement and/or action
- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g., peer support for those reporting or affected by an online safety incident
- incidents should be logged
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police; Professionals Online Safety Helpline; Reporting Harmful Content; CEOP.
- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions
- learning from the incident (or pattern of incidents) will be provided to:
 - *staff, through regular briefings*
 - *learners, through assemblies/lessons*
 - *parents/carers, through newsletters, school social media, website*
 - *governors, through regular safeguarding updates*
 - *local authority/external agencies, as relevant.* The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.

School actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

Responding to Learner Actions

Incidents	Refer to class teacher/tutor	Refer to Headteacher	Refer to Police/Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/network/internet access	Issue a warning	Further sanction, in line with behaviour policy
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on User Actions on unsuitable/inappropriate activities).		X	X	x	x		x	
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	x	x	x	x	x		x	
Unauthorised downloading or uploading of files or use of file sharing.	x	x		x	x		x	
Accidentally accessing offensive or pornographic material and failing to report the incident.	x	x		x	x			
Deliberately accessing or trying to access offensive or pornographic material.		x	x	x	x		x	

Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act.	x	x		x				
Unauthorised use of digital devices (including taking images)		x			x			
Unauthorised use of online services	x	x			x			
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	x	x			x			x
Continued infringements of the above, following previous warnings or sanctions.	x	x		x	x			x

Responding to Staff Actions

Incidents	Refer to line manager	Refer to Headteacher/ Principal	Refer to local authority/MAT/HR	Refer to Police	Refer to LA / Technical Support Staff for action re filtering, etc.	Issue a warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities)		X	X	X				X
Deliberate actions to breach data protection or network security rules.		X	X		X	X		
Deliberately accessing or trying to access offensive or pornographic material		X	X	X			X	X
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software		X	X	X				X
Using proxy sites or other means to subvert the school's filtering system.		X	X		X	X		
Unauthorised downloading or uploading of files or file sharing		X			X			
Breaching copyright or licensing regulations.		X			X	X		
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account.		X			X	X		

Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature		X	X					X
Using personal e-mail/social networking/messaging to carry out digital communications with learners and parents/carers		X			X	X		
Inappropriate personal use of the digital technologies e.g. social media / personal e-mail		X	X			X		
Careless use of personal data, e.g. displaying, holding or transferring data in an insecure manner		X	X		X			
Actions which could compromise the staff member's professional standing		X	X			X		
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.		X	X			X		X
Failing to report incidents whether caused by deliberate or accidental actions		X	X			X		X
Continued infringements of the above, following previous warnings or sanctions.		X	X		X			X

Online Safety Education Programme

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways;

- a planned online safety curriculum for all year groups and regularly taught in a variety of contexts.
- lessons matched to need, age-related and building on prior learning
- lessons context-relevant with agreed objectives leading to clear and evidenced outcomes
- learner need and progress addressed through effective planning and assessment

- digital competency planned and effectively threaded through the appropriate digital pillars in other curriculum areas e.g. PHSE; SRE; Literacy etc
- incorporation/use of relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week.
- programme accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.
- relevant and up to date online safety education programme to ensure the quality of learning and outcomes.

Contribution of Learners

The school acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through:

- mechanisms to canvas learner feedback and opinion.
- pupil voice
- learners contributions to the online safety education programme e.g. peer education, digital leaders leading lessons for younger learners, online safety campaigns
- learners designing/updating acceptable use agreements
- online safety events with the wider school community e.g. parents' evenings, family learning programmes etc.

Staff/volunteers

All staff will receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- a planned programme of formal online safety and data protection training will be made available to all staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- the training will be an integral part of the school's annual safeguarding and data protection training for all staff
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements which include explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours
- *The Headteacher /Deputy Headteacher will receive regular updates through attendance at external training events, and by reviewing guidance documents released by relevant organisations*
- *this Online Safety Policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days*

- *the Headteacher /Deputy Headteacher will provide advice/guidance/training to individuals as required.*

Governors

Governors should take part in online safety training/awareness sessions:

- training provided by the local authority or other relevant organisations
- participation in school training
- information sessions for staff or parents.

A higher level of training will be made available to (at least) the Online Safety Governor.

Families

The school will seek to provide information and awareness to parents and carers through:

- regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes
- regular opportunities for engagement with parents/carers on online safety issues through awareness workshops / parent/carer evenings etc
- the learners – who are encouraged to pass on to parents the online safety messages they have learned in lessons and by learners leading sessions at parent/carer evenings.
- letters, newsletters, website, learning platform,
- high profile events / campaigns e.g. Safer Internet Day
- reference to the relevant web sites/publications, e.g. SWGfL; www.saferinternet.org.uk/; www.childnet.com/parents-and-carers (see Appendix for further links/resources).
- Sharing good practice with other schools in clusters and or the local authority.

Adults and Agencies

The school will provide opportunities for local community groups and members of the wider community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- online safety messages targeted towards families and relatives.
- *the school will provide online safety information via their website and news letter*

Technology

The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in

place on a regular basis and explain that everyone is responsible for online safety and data protection.

Filtering

- The school filtering policies are agreed by senior leaders and technical staff and are regularly reviewed and updated in response to changes in technology and patterns of online safety incidents/behaviours
- The school manages access to content across its systems for all users. The filtering provided meets the standards defined in the UK Safer Internet Centre. This is monitored by Smoothwall.
- Access to online content and services is managed for all users
- Illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office.
- There are established and effective routes for users to report inappropriate content
- There is a clear process in place to deal with requests for filtering changes
- Younger learners will use child friendly/age-appropriate search engines e.g. [SWGfL Swiggle](#)
- Filtering logs including Smoothwall are regularly reviewed and alert the school to breaches of the filtering policy, which are then acted upon. The Headteacher receives a weekly report from Smoothwall.
- Where personal mobile devices have internet access through the school network, content is managed in ways that are consistent with school policy and practice.
- Access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice.

If necessary, the school will seek advice from, and report issues to, the SWGfL [Report Harmful Content site](#) and other appropriate agencies.

Monitoring

The school has monitoring systems in place to protect the school, systems and users:

- The school monitors all network use across all its devices and services.
- An appropriate monitoring strategy for all users has been agreed and users are aware that the network is monitored. There is a staff lead responsible for managing the monitoring strategy and processes.
- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention.

Management of serious safeguarding alerts is consistent with safeguarding policy and practice

- Technical monitoring systems are up to date and managed and logs/alerts are regularly reviewed and acted upon.

The school follows the UK Safer Internet Centre [Appropriate Monitoring](#) guidance and protects users and school systems through the use of the appropriate blend of strategies strategy informed by the school's risk assessment. These may include:

- physical monitoring (adult supervision in the classroom)
- internet use is logged, regularly monitored and reviewed
- filtering logs are regularly analysed and breaches are reported to senior leaders

Technical Security

The school technical systems will be managed in ways that ensure that the school meets recommended technical requirements.

- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling are securely located and physical access restricted
- There are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud
- All users have clearly defined access rights to school technical systems and devices. Details of the access rights available to groups of users will be recorded by the School Business Manager (or other person) and will be reviewed, at least annually, by the Online Safety Group
- All users (adults and learners) have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details. Users must immediately report any suspicion or evidence that there has been a breach of security.
- All school networks and system will be protected by secure passwords. Passwords must not be shared with anyone. All users will be provided with a username and password by The School Business Manager and JSPC who will keep an up-to-date record of users and their usernames
- The master account passwords for the school systems are kept in a secure place, e.g. school safe
- Passwords should be long
- Records of learner usernames and passwords for learners in Key Stage 1 or younger can be kept in an electronic or paper-based form, but they must be securely kept when not required by the user
- Password requirements for learners at Key Stage 2 and above should increase as learners progress through school

- The School Business Manager is responsible for ensuring that all software purchased by and used by the school is adequately licenced and that the latest software updates (patches) are applied
- An appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed)
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems and devices from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up-to-date endpoint (anti-virus) software.
- An agreed policy is in place for the provision of temporary access of 'guests', (e.g., trainee teachers, supply teachers, visitors) onto the school systems
- An agreed policy is in place regarding the extent of personal use that users (staff / learners / community users) and their family members are allowed on school devices that may be used out of school
- An agreed policy is in place that allows staff to download executable files and install programmes on school devices
- An agreed policy is in place regarding the use of removable media (e.g., memory sticks/CDs/DVDs) by users on school devices.
- Systems are in place that prevent the unauthorised sharing of personal data unless safely encrypted or otherwise secured.

Mobile technologies

The school acceptable use agreements for staff, learners, parents, and carers outline the expectations around the use of mobile technologies.

The school allows:

	School devices			Personal devices		
	School owned for individual use	School owned for multiple users	Authorised device ⁴	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	No	Yes	Yes
Full network access	Yes	Yes	Yes	No	No	No

Internet only				No	Yes	Yes
---------------	--	--	--	----	-----	-----

Social media

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to learners through:

- ensuring that personal information is not published
- education/training being provided including acceptable use, age restrictions, social media risks, digital and video images policy, checking of settings, data protection and reporting issues
- clear reporting guidance, including responsibilities, procedures and sanctions
- risk assessment, including legal risk
- guidance for learners, parents/carers

School staff should ensure that:

- no reference should be made in personal social media to learners, parents/carers or school staff
- they do not engage in online discussion on personal matters relating to members of the school community
- personal opinions should not be attributed to the school
- security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information
- they act as positive role models in their use of social media

When official school social media accounts are established, there should be:

- a process for approval by senior leaders
- clear processes for the administration, moderation, and monitoring of these accounts – involving at least two members of staff
- a code of behaviour for users of the accounts
- systems for reporting and dealing with abuse and misuse
- understanding of how incidents may be dealt with under school disciplinary procedures.

Personal use

- personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- personal communications which do not refer to or impact upon the school are outside the scope of this policy

- where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- the school permits reasonable and appropriate access to personal social media sites during school hours

Monitoring of public social media

- As part of active social media engagement, the school may pro-actively monitor the Internet for public postings about the school
- the school should effectively respond to social media comments made by others according to a defined policy or process
- when parents/carers express concerns about the school on social media we will urge them to make direct contact with the school, in private, to resolve the matter. Where this cannot be resolved, parents/carers should be informed of the school complaints procedure.

Digital and video images

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm.

- The school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies.
- When using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images.
- Staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes
- In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images
- Staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, storage, distribution and publication of those images
- Care should be taken when sharing digital/video images that learners are appropriately dressed
- Learners must not take, use, share, publish or distribute images of others without their permission
- Photographs that include learners, published on the website or elsewhere, will be selected carefully and will comply with Online Safety Policy

- Learners' full names will not be used anywhere on a website or blog, particularly in association with photographs
- Written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media.
- Parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy
- Images will be securely stored in line with the school retention policy
- Learners' work can only be published with the permission of the learner and parents/carers.

Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through:

- Public-facing website
- Social media
- Online newsletters

The school website is managed/hosted by word press and managed by ourselves. The school ensures that online safety policy has been followed in the use of online publishing e.g., use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

Data Protection

Personal data will be recorded, processed, transferred and made available according to the current data protection legislation.

The school:

- has a Data Protection Policy.
- implements the data protection principles and can demonstrate that it does so
- has paid the appropriate fee to the Information Commissioner's Office (ICO)
- has appointed an appropriate Data Protection Officer (DPO) who has effective understanding of data protection law and is free from any conflict of interest.
- has a 'Record of Processing Activities' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it

- the Record of Processing Activities lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis is listed
- has an 'information asset register' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it. The information asset register lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis will have also been listed
- will hold the minimum personal data necessary to enable it to perform its function and will not hold it for longer than necessary for the purposes it was collected for. The school 'retention schedule' supports this
- data held is accurate and up to date and is held only for the purpose it was held for. Systems are in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals
- provides staff, parents, volunteers, teenagers, and older children with information about how the school looks after their data and what their rights are in a clear Privacy Notice
- has procedures in place to deal with the individual rights of the data subject,
- carries out Data Protection Impact Assessments (DPIA) where necessary e.g. to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier
- has undertaken appropriate due diligence and has data protection compliant contracts in place with any data processors
- understands how to share data lawfully and safely with other relevant data controllers.
- has clear and understood policies and routines for the deletion and disposal of data
- reports any relevant breaches to the Information Commissioner within 72hrs of becoming aware of the breach as required by law. It also reports relevant breaches to the individuals affected as required by law. In order to do this, it has a policy for reporting, logging, managing, investigating and learning from information risk incidents
- has a Freedom of Information Policy which sets out how it will deal with FOI requests
- provides data protection training for all staff at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff

When personal data is stored on any mobile device or removable media the:

- data will be encrypted, and password protected.
- device will be password protected.
- device will be protected by up-to-date endpoint (anti-virus) software

- data will be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written and know who to pass it to in the school
- only use encrypted data storage for personal data
- will not transfer any school personal data to personal devices.
- use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data
- transfer data using encryption, a secure email account (where appropriate), and secure password protected devices.

Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., online safety education, awareness, and training
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership and Governors
- parents/carers are informed of patterns of online safety incidents as part of the school's online safety awareness raising
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local online safety strategy.

BGPS Learner Acceptable Use Agreement Template – for KS2

Introduction

Digital technologies have become integral to the lives of children and young people, both within and outside schools. These technologies are powerful tools, which open-up new opportunities for everyone. They can stimulate discussion, encourage creativity and stimulate awareness of context to promote effective learning. Learners should have an entitlement to safe access to these digital technologies.

This acceptable use agreement is intended:

- to ensure that learners will have good access to devices and online content, be responsible users and stay safe while using digital technologies for educational, personal and recreational use
- to help learners understand good online behaviours that they can use in school, but also outside school
- to protect school devices and networks from accidental or deliberate misuse that could put the security of the systems and users at risk.

Acceptable Use Agreement

When I use devices I must behave responsibly to help keep me and other users safe online and to look after the devices.

For my own personal safety:

- I understand that what I do online will be supervised and monitored and that I may not be allowed to use devices in school unless I follow these rules and use them responsibly
- I will only visit internet sites that adults have told me are safe to visit
- I will keep my username and password safe and secure and not share it with anyone else
- I will be aware of “stranger danger” when I am online
- I will not share personal information about myself or others when online

- If I arrange to meet people off-line that I have communicated with online, I will do so in a public place and take a trusted adult with me
- I will immediately tell an adult if I see anything that makes me feel uncomfortable when I see it online.

I will look after the devices I use, so that the school and everyone there can be safe:

- I will handle all the devices carefully and only use them if I have permission.
- I will not try to alter the settings on any devices or try to install any software or programmes.
- I will tell an adult if a device is damaged or if anything else goes wrong.
- I will only use the devices to do things that I am allowed to do.
- I will think about how my behaviour online might affect other people:
- When online, I will act as I expect others to act toward me.
- I will not copy anyone else's work or files without their permission.
- I will be polite and responsible when I communicate with others and I appreciate that others may have different opinions to me.
- I will not take or share images of anyone without their permission.

I know that there are other rules that I need to follow:

- I will not use my own personal devices (mobile phones/USB devices etc.) in the school
- Where work is protected by copyright, I will not try to download copies (including music and videos).
- When I am using the internet to find information, I should take care to check that the information is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.
- I should have permission if I use the original work of others in my own work.

I understand that I am responsible for my actions, both in and out of school:

- I know that I am expected to follow these rules in school and that I should behave in the same way when out of school as well.
- I understand that if I do not follow these rules, I may be subject to disciplinary action. These sanctions will be in line with the school's behaviour policy and in the event of illegal activities the involvement of the police.

Learner Acceptable Use Agreement Form

Please complete the sections below to show that you have read, understood and agree to the rules included in the acceptable use agreement. If you do not sign and return this agreement, access will not be granted to school systems.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)

- I use my own devices in the school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras etc.
- I am out of school and involved in any online behaviour that might affect the school or other members of the school.

Name of Learner: Group/Class:.....

Signed: Date:

Learner Acceptable Use Agreement Template – for younger learners (Foundation/KS1)

This is how we stay safe when we use computers:

- I will ask a teacher or suitable adult if I want to use the computers/tablets
- I will only use activities that a teacher or suitable adult has told or allowed me to use
- I will take care of computers/tablets and other equipment
- I will ask for help from a teacher or suitable adult if I am not sure what to do or if I think I have done something wrong
- I will tell a teacher or suitable adult if I see something that upsets me on the screen
- I know that if I break the rules I might not be allowed to use a computer/tablet

Signed (parent):

A4 Parent/Carer Acceptable Use Agreement Template

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This acceptable use policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their on-line behaviour.

The school will try to ensure that learners have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users. A copy of the learner acceptable use agreement is attached to this permission form, so that parents/carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school's work

Permission Form

Parent/Carers Name:

Learner Name:

As the parent/carers of the above learners, I give permission for my son/daughter to have access to the digital technologies at school.

Either: (KS2 and above)

I know that my son/daughter has signed an acceptable use agreement and has received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

Or: (KS1)

I understand that the school has discussed the acceptable use agreement with my son/daughter and that they have received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my son's/daughter's activity on the systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the acceptable use agreement.

I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's online safety.

Use of Digital/Video Images

The use of digital/video images plays an important part in learning activities. Learners and members of staff may use digital cameras to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media. Where an image is publicly shared by any means, only your child's first name will be used.

The school will comply with the Data Protection Act and request parent's/carers' permission before taking images of members of the school. We will also ensure that when images are published that the young people cannot be identified by the use of their names.

In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in

some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images.

Parents/carers are requested to sign the permission form below to allow the school to take and use images of their children and for the parents/carers to agree.

As the schools is collecting personal data by issuing this form, it should inform parents/carers as to:

This form (electronic or printed)	The images
Who will have access to this form?	Where the images may be published. Such as; Twitter, Facebook, the schools website, local press, etc. (see relevant section of form below)
Where this form will be stored.	Who will have access to the images?
How long this form will be stored for.	Where the images will be stored.
How this form will be destroyed.	How long the images will be stored for.
	How the images will be destroyed.
	How a request for deletion of the images can be made.

Digital/Video Images Permission Form

A5 Staff (and Volunteer) Acceptable Use Policy Agreement Template

School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities for learning and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that learners receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using school systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website/VLE) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in school in accordance with the school's policies.
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my mobile devices in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses
- I will not use personal email addresses on the school's ICT systems.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist or extremist material, adult pornography covered

by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.

- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School Personal Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the online systems in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use policy applies not only to my work and use of school's digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors/Trustees and/or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Staff/Volunteer Name:

A6 Acceptable Use Agreement for Community Users Template

This acceptable use agreement is intended to ensure:

- that community users of school digital technologies will be responsible users and stay safe while using these systems and devices
- that school systems, devices and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that users are protected from potential harm in their use of these systems and devices

Acceptable Use Agreement

I understand that I must use school systems and devices in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems, devices and other users. This agreement will also apply to any personal devices that I bring into the school:

- I understand that my use of school systems and devices will be monitored
- I will not use a personal device that I have brought into school for any activity that would be inappropriate in a school setting.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist and extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will not access, copy, remove or otherwise alter any other user's files, without permission.
- I will ensure that if I take and/or publish images of others I will only do so with their permission. I will not use my personal equipment to record these images, without permission. If images are published it will not be possible to identify by name, or other personal information, those who are featured.
- I will not publish or share any information I have obtained whilst in the school on any personal website, social networking site or through any other means, unless I have permission from the school.
- I will not, without permission, make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a school device, nor will I try to alter computer settings, unless I have permission to do so.

- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will immediately report any damage or faults involving equipment or software, whatever the cause.
- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that if I fail to comply with this acceptable use agreement, the school has the right to remove my access to school systems/devices

I have read and understand the above and agree to use the school systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Policy for Harmful Sexual Behaviour

Statement of intent

Our school has a zero-tolerance approach to any harmful sexual behaviour involving children and acknowledge that it could be occurring at Barns Green Primary School and in our school community. The school is proactive in its approach to assessing prevalence, responding to incidents and challenging and changing behaviour. This policy applies to all governors, staff and learners.

Schools and colleges have a statutory duty to safeguarding the children in their setting. We work together to foster an environment that creates healthy relationships for children and young people.

Our whole-school approach encourages healthy relationships and works to prevent harmful sexual behaviour. We provide high quality education within the curriculum to reduce the likelihood of the situations occurring.

We recognise that HSB is harmful to both the child/children affected by the behaviours and the child/children who displayed the behaviour and provide ongoing support for all involved.

Our approach is to treat everything as safeguarding incident in the first instance - we distinguish between behaviours that are exploratory and part of healthy age and ability appropriate development and those that may be harmful.

As a school we provide regular opportunities for school staff to understand what harmful sexual behaviours might look like and what they should do in the event of a report.

Related policies

This policy should be read in conjunction with:

- Child protection and safeguarding policy
- Whistleblowing
- Behaviour policy
- Anti-bullying policy
- Online safety

- Acceptable Use Agreements
- Curriculum policies

Definitions

As stated in the Sexual Offences Act 2003, the term Harmful Sexual Behaviour (HSB) covers a wide range of behaviours, often these may be considered problematic, abusive, or violent and may also be developmentally inappropriate. HSB can occur online, offline or in a blend of both environments. The term HSB is widely acknowledged in child protection and should be treated in this context.

Whilst peer on peer harassment has become a widely recognised term, this is already moving towards child on child in recognition that age and development is a factor in making decisions about behaviour. A significant age difference between the children involved in an incident may lead to a decision about the behaviour being harmful or not. For example, this could be an older child's behaviour towards a pre-pubescent child, or a younger child's behaviour towards an older child with learning difficulties. It is important that Designated Safeguarding Leads (DSL) know what is and is not HSB. DSLs should be involved in planning the curriculum for HSB, planning preventative actions and ensuring a whole-schools culture that condones HSB, alongside all other forms of abuse and harassment. This template policy provides a basis for an effective approach to managing sexual violence and harassment.

What is sexual violence?

The following are sexual offences under the [Sexual Offences Act 2003](#):

Rape: A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.

Assault by Penetration: A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.

Sexual Assault: A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents. (NOTE- Schools and colleges should be aware that sexual assault covers a very wide range of behaviour so a single act of kissing someone without consent,

or touching someone's bottom/breasts/genitalia without consent, can still constitute sexual assault.)

Causing someone to engage in sexual activity without consent: A person (A) commits an offence if: s/he intentionally causes another person (B) to engage in an activity, the activity is sexual, B does not consent to engaging in the activity, and A does not reasonably believe that B consents. (NOTE – this could include forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.)

What is sexual harassment?

When referring to sexual harassment we mean 'unwanted conduct of a sexual nature' that can occur online and offline and both inside and outside of school/college. When we reference sexual harassment, we do so in the context of child-on-child sexual harassment. Sexual harassment is likely to: violate a child's dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

Whilst not intended to be an exhaustive list, sexual harassment can include:

- sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names
- sexual "jokes" or taunting
- physical behaviour, such as: deliberately brushing against someone, interfering with someone's clothes (schools and colleges should be considering when any of this crosses a line into sexual violence – it is important to talk to and consider the experience of the victim) and displaying pictures, photos or drawings of a sexual nature; and
- Online sexual harassment may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence. It may include:
- consensual and non-consensual sharing of nude and semi-nude images and/or videos. Taking and sharing nude photographs of U18s is a criminal offence.
 - sharing of unwanted explicit content
 - upskirting (this is a criminal offence)
 - sexualised online bullying
 - unwanted sexual comments and messages, including, on social media
 - sexual exploitation; coercion and threats.

It is important that schools and colleges consider sexual harassment in broad terms. Sexual harassment (as set out above) creates a culture that, if not challenged, can normalise inappropriate behaviours and provide an environment that may lead to sexual violence.

Responsibilities

Leaders and DSLs

Our leaders and DSLs have ultimate responsibility in dealing with all incidents of harmful sexual behaviour, including online. It is the expectation that all incidents of harmful sexual behaviour/sexual violence and harassment are reported in line with school safeguarding and child protection procedures.

We ensure that our designated safeguarding lead/s (DSL) and their deputies are confident in school safeguarding processes and when it is necessary to escalate. Our DSLs know what local and national specialist support is available to support all children involved in harmful sexual behaviour and are confident as to how to access this support when required.

Designated safeguarding lead/s and their deputies have an in-depth working knowledge of key documentation, particularly KCSIE 2022 and Sexual Violence and Sexual Harassment Between Children in Schools and Colleges (DfE 2021). We ensure that they receive appropriate specialist training, commensurate with their role and that ongoing training is provided for all school staff.

It is the role of school leaders and designated safeguarding leads to ensure that all staff and Governors receive training specific to harmful sexual behaviour, and that it is included as part of induction.

Staff

It is the responsibility of all staff to have read and understood this policy and associated policies. All staff must report any incidents or suspected incidents of harmful sexual behaviour to DSLs in line with school policy and ensure they are informed of the outcome. All staff will challenge any harmful sexual language or inappropriate behaviour. Staff have a duty to ensure that the school environment is one which is safe and which supports learners to understand safe and healthy relationships and appropriate behaviour through delivery of our curriculum.

Governors

We ensure that our trust board/governing body have a good understanding of what harmful sexual behaviour is, when it can pose a risk to children and how to keep children safe. Our trustees/governors receive regular training and updates, both in terms of what sexualised behaviour is, but also how to effectively support establishments and their stakeholders whilst holding provision to account.

As part of the headteacher's report, our trust board/governing body has the opportunity to monitor and evaluate the approach to harmful sexual behaviour to ensure it is adequate and effective. This includes evaluation of the curriculum, pupil voice activity and evaluation of parent/carer engagement. Trustees/Governors ensure that risks relating to these issues are identified, that a number of reporting routes are available, and that risks are effectively mitigated.

Learners

All learners have the right to learn in a safe, healthy and respectful school environment. Our learners benefit from a broad and balanced curriculum and are taught about healthy relationships and know how and when to report and that a range of different reporting routes is available to them. Our learners are encouraged to report any harmful sexual behaviour, even if they are not directly involved. All learners will be believed if they make a disclosure and will be treated sensitively - whilst we cannot guarantee confidentiality, their thoughts and wishes will be taken into account when supporting them.

Parents/carers

We work hard to engage parents and carers by:

- regular in school sessions
- sharing newsletters
- sharing information online e.g., website, social media
- providing curriculum information

Our parents and carers are made aware of how and when to report any concerns to the school, that all incidents will be handled with care and sensitivity, and that it may sometimes be necessary to involve other agencies.

Vulnerable groups

We recognise that, nationally, vulnerable learners are three times more likely to be at risk from Harmful Sexual Behaviour. These include:

- A child with additional needs and disabilities.
- A child living with domestic abuse.
- A child who is at risk of/suffering significant harm.
- A child who is at risk of/or has been exploited or at risk of exploited (CRE, CSE),
- A care experienced child.
- A child who goes missing or is missing education.

- Children who identify as, or are perceived as, LGBTQI+ and/or any of the other protected characteristics

Children displaying HSB have often experienced their own abuse and trauma. We ensure that any vulnerable learner is offered appropriate support, both within and outside school, sometimes via specialist agencies.

Reporting

Our systems are well promoted, easily understood and easily accessible for children and young people to confidently report abuse, knowing their concerns will be treated seriously. All reports will be dealt with swiftly and sensitively and outcomes shared where appropriate. We also respond to anonymous reports, or reports made by third parties. This can be done via:

Message and IFD referral

Responding to an incident or disclosure

In this policy we recognise the importance of distinguishing between healthy, problematic and sexually harmful behaviour (HSB)

Our response is always based on sound safeguarding principles and follows school safeguarding processes. It is calm, considered and appropriate and puts the learner at the centre of all decisions made.

The school will always adopt a multi-agency approach and seek external support and guidance, in line with school policy, if deemed necessary. This may include:

List relevant agencies e.g.; IFD, Early Help, CAMHS, SPOA Police etc.

Risk assessment

The school may deem it necessary to complete a harmful sexual behaviour risk assessment as part of the response to any reported incidents. The purpose of the risk assessment is to protect and support **all those involved** by identifying potential risk, both in and out of school (e.g., including public transport, after school clubs etc) and by clearly describing the strategies put in place to mitigate such risk.

The risk assessment will be completed following a meeting with all professionals working with the learner, as well as parents or carers. Where appropriate, the learners involved will also be asked to contribute.

The risk assessment will be shared with all staff who work with the learner, as well as parents and carers. It will be dynamic and will respond to any changes in behaviour and will be regularly evaluated to assess impact.

Education

Our school's educational approach seeks to develop knowledge and understanding of healthy, problematic and sexually harmful behaviours, and empowers young people to make healthy, informed decisions. Our school's approach is delivered predominantly through PSHE and RSE and additional opportunities are provided through:

- Cross curricular programmes
- Computing curriculum

Our approach is given the time it deserves and is authentic i.e., based on current issues nationally, locally and within our setting. It is shaped and evaluated by learners and other members of the school community to ensure that it is dynamic, evolving and based on need. We do this by:

- Parental engagement
- Staff consultation
- Staff training
- Discrete lessons
- Involvement from outside agencies e.g.- NSPCC and our community police officer

The following resources are used:

PSHE Association resources

NSPCC resources

Safer Internet day resources

Training

Through the provision of good quality training and support, we strive to foster in our DSLs, and their deputies, a good understanding of HSB. This will form part of their safeguarding training. Supporting them in planning preventative education and measures, drafting and implementing an effective child protection policy and incorporating the approach to sexual violence and sexual harassment into the whole school or college approach to safeguarding. The training includes:

- Brook traffic light tool
- NSPCC training
- Whole staff training
- Annual and ongoing safe guarding training

Our training strategy supports staff to respond effectively to different types of harassment and sexual misconduct incidents. This should involve an assessment of the training needs of all staff. This strategy should be reviewed and evaluated on a regular basis to ensure it is fit for purpose. Training will be made available on an ongoing basis for all staff and students to raise awareness of harassment and sexual misconduct with the purpose of preventing incidents and encouraging reporting where they do occur.

Helpful links

[Child Exploitation and Online Protection command](#)

CEOP is a law enforcement agency which aims to keep children and young people safe from sexual exploitation and abuse. Online sexual abuse can be reported on their website and a report made to one of their Child Protection Advisors.

[The NSPCC](#)

provides a helpline for professionals at 0808 800 5000 and help@nspcc.org.uk. The helpline provides expert advice and support for school and college staff, and will be especially useful for the designated safeguarding lead (and their deputies).
